

ALLIANCE FOR
RESPONSIBLE MINING

ASM PROGRESS APP

Facilitating transparency for responsible environmental and social management in Artisanal and Small-Scale Mining

ASM progress app is a digital online tool that offers **reliable and harmonized information** about the progress of the mining organizations in their **ESG practices, according to the CRAFT code, the Fairmined standard, and the Forest Smart Mining standard.**

ARTISANAL MINING
GRAND CHALLENGE

ASM Progress App was a winner of the **Artisanal Mining Grand Challenge** and was recognized as an **innovative solution** to transform the artisanal and small-scale mining sector into a more environmentally responsible and socially equitable activity.

ACCESS TO REAL-TIME DATA

ASM assessment and progress

ESG performance of mines

Compliance of due diligence criteria with the OECD Guidelines

Profiles and features of the mining organizations and their territories

The app is created in the infrastructure of Datastake bringing possibilities to connect to others sources of data.

BE A PARTNER FOR CHANGE!

Join our group of partners who are **contributing to positively transforming the small-scale mining sector.**

WHAT WILL YOU GET?

NGO AND LOCAL PARTNERS

- A standardized methodology for collecting, assessing, and monitoring information of the ASM mines.
- Evaluation of the mining organization against the CRAFT, Fairmined, and Forest Smart mining standards.
- No need to invest in developing their own system.

 Monthly fee depending on the # of ASMO. Discounted fees for local NGOs.

DEVELOPMENT PROJECTS/DONORS

- Use a common measurement framework on ASM due diligence and sustainability issues.
- Visualize and review the sustainability performance of the ASM mines as part of a Monitoring, Evaluation and Learning strategy in projects.

 Monthly fee depending on the # of assessments and users. Discount for long-term subscription.

PRIVATE SECTOR

- Use the specialized and standardized methodology to collect information from its ASM suppliers, based on recognized sustainability standards.
- View or download sustainability performance assessments of your ASM provider in real time for audit, compliance and reporting purposes.
- Access to documents that support due diligence and their ESG input.

 Monthly fee depending on the # of assessments and users. Discount for long-term subscription.

GENERAL SERVICES

- Introductory training on the use of the app.
- Data access can be completely independent with a login set up with a database provider.
- Possibility of including new indicators or additional questions (additional fee).

COMPLEMENTARY SERVICES

- Tailor-made support of ARM's team in mine assessments and the design of the sustainability plans with the miners.
- Online and in-person training on the CRAFT Code, Fairmined Standard and Forest smart mining application and specific sustainability aspects.
